Updated Townhome in Mill Valley

This updated 2 bedroom, 2 bath townhouse is a peaceful and private oasis just steps from the action of downtown Mill Valley. In the master bedroom you'll feel like you're on top of the world, where you can sunbathe in total privacy on the deck while enjoying views of distant redwood trees, while shops, restaurants, and entertainment are literally just around the corner. Sunny southern exposure means great natural light, solar panels offset the electricity bill, and the kitchen's been newly updated with granite counters, stainless steel appliances, and a gas range. A second deck off the kitchen is perfect for dining al fresco or just reading a book and relaxing. Located in a four unit complex with low HOA dues, just two blocks from Old Mill School. 2-car garage with tons of extra storage.
